A result of 15 years of research in vibrational energy!

InvigoRest Sleep Patches are non-transdermal, meaning nothing enters the body. Each patch has a trace mineral complex applied to it. The mineral complex is charged with vibrational energy designed to help you go into deeper, more restful sleep with no side effects.

InvigoRest Sleep Patches are ideal for those who don't like taking powders or capsules. They also may work well for you in combination with InvigoRest powders or capsules.

Each patch works for ten hours. They become activated when applied to the body. Apply the patch immediately before bedtime anywhere on the inside wrist area. Remove the patch when you are ready to get up.

InvigoRest – SLEEP LIKE A BABY!

It is during deep sleep that the body repairs itself.

A lack of deep sleep can cause a wide variety of physical, mental, and emotional disorders including irritability, depression, difficulty concentrating, weakened immune system, memory loss, inflammation and pain, heart disease, obesity, and many other problems. The amount of time we spend sleeping is not as important as the quality of sleep we're getting.

Sleeping well again can have a very positive effect on how well we feel and function in all areas of our lives.

If you no longer wake up in the morning with a good stretch and yawn or deep breath, feeling rejuvenated, try InvigoRest. It has changed many lives. It could change yours.

For external use only. This product has not been evaluated by the FDA and is not intended to diagnose, treat, cure, or prevent any disease or medical condition.

With the InvigoRest Sleep Patch you can experience drug-free, deep, restful sleep.
